Dear Mr. Pigott:

**Re: Indiana-Kentucky Electric Corporation
Revision to Clifty Creek Station's Certified CCR Fugitive Dust Control Plan**

As required by 40 CFR 257.106(g)(1), the Indiana-Kentucky Electric Corporation (IKEC) is providing notification to the Commissioner of the Indiana Department of Environmental Management (IDEM) that the certified CCR Fugitive Dust Control Plan for IKEC's Clifty Creek Station has been revised. Revisions include language and operational details associated with the installation of a conveyor system at Clifty Creek Station to facilitate loading of IKEC's synthetic gypsum product to barge for beneficial reuse in wallboard manufacturing. The newly revised plan has been placed in the facility's operating record as well as on the company's publically accessible internet site, which can be viewed at <http://www.ovec.com/CCRCompliance.php>

If you have any questions, or require any additional information, please call me at (740) 897-7768.

Sincerely,

A handwritten signature in black ink that reads "Tim Fulk".
