As required by 40 CFR 257.106(f), the Ohio Valley Electric Corporation is providing notification to the Director of Ohio Environmental Protection Agency that periodic updates of specific design criteria demonstrations, as required by the Federal CCR Rule, have been completed for the applicable demonstrations for each Kyger Creek Station CCR Unit, as follows:

The above demonstrations were initially completed in 2016, revisited in 2021, and have been updated within the five-year interval the rule requires.
